WAY FORWARD WITH CIMB TRADING COMPETITION 2011

26 September - 29 October 2011

"Take the challenge, feel the exhilaration!"

ABOUT THE COMPETITION

The Way Forward with CIMB Trading Competition is a trading competition that was first organised in 2010 to provide the opportunity for university students to experience the excitement of buying and selling stocks in a fully stimulated and virtual environment of the Malaysian stock exchange.

The Way Forward with CIMB Trading Competition was opened to selected Malaysian university students when it was first introduced in 2010. Due to positive response, CIMB has extended the competition to undergraduates of universities from Indonesia, Singapore and Thailand. Hence, CIMB has the pleasure to also invite students from universities in Indonesia, Singapore and Thailand this year.

HOW IT WORKS ?

The Way Forward with CIMB Trading Competition is an online competition hosted at http://cimbtradingcompetition.itradecimb.com in which participants can perform the following:

1. Buying and Selling of stocks
2. Monitoring your status of orders – MATCHED, UNMATCHED, CANCELLED, PENDING, EXPIRED, REVISED, REJECTED

Each university is allowed to send a maximum of 5 teams (4 students each team) to take part in the Way Forward with CIMB Trading Competition. Teams will work together to trade shares with a start up virtual cash of RM 500,000. Teams will have to apply their knowledge in interpreting and analysing information from the stock market; apart from applying teamwork, communication and leadership skills.

The three (3) weeks trading period will test participants' knowledge and skills in strategic planning within the team, decision making on stocks and when to invest and sell - requiring application of knowledge in actual financial scenarios.

The top five (5) teams with the highest total virtual credit at the end of trading hours (Malaysia local time) on Friday, 21st October 2011 will then be eligible to proceed to the final round on Saturday, 29th October 2011. Teams will then present to a panel of judges on their strategies applied throughout the trading period.

2. At the finals, the top five (5) teams will be judged based on following:
   (i) 50% on the total virtual credit; and
   (ii) 50% on presentation according to the EVALUATION CRITERIA below:

EVALUATION CRITERIA

- 15% on Presentation Skills
- 5% on Teamwork
- 30% on Trading/Investment Strategy

Investment Strategy may mean the set of rules, behaviors or procedures, designed to guide an investor's selection of an investment portfolio. Usually the strategy will be designed around the investor's risk-return tradeoff: some investors will prefer to maximise expected returns by investing in risky assets, others will prefer to minimise risk, but most will select a strategy somewhere in between.

Trading Strategy may refer to a predefined set of rules for making trading decisions. Traders, investment firms and fund managers use a trading strategy to help make wiser investment decisions and help eliminate the emotional aspect of trading. A trading strategy is governed by a set of rules that do not deviate. Emotional bias is eliminated because the systems operate within the parameters known by the trader. The parameters can be trusted based on historical analysis and real world market studies (forward testing), so that the trader can have confidence in the strategy and its operating characteristics.
