CIMB ASEAN YOUTH STOCK CHALLENGE 2012

Contest guidelines

LET THE BATTLE BEGIN

The time has come to fight a different kind of battle, to win a different kind of war. Welcome to the CIMB ASEAN Youth Stock Challenge 2012. Get ready to take on the ASEAN stock market in a game where wit, concentration and sheer determination will be your ultimate strategy.

This is the first stock trading competition in ASEAN that incorporates trading across major ASEAN stock exchanges, that allows youths to experience cross-border trading like no other.

The first stock challenge CIMB organized was in 2010 where the aim was to provide the opportunity for university students in Malaysia to experience the excitement of buying and selling stocks in a fully simulated and virtual environment on the Malaysian Stock Exchange (BURSA). After much trials and tribulations, Nottingham University emerged the final winner.

In August 2011, the first CIMB regional stock challenge, also focused on trading stocks on the BURSA, was opened to universities in Malaysia, Singapore, Indonesia and Thailand. The top 5 teams in the trading competition were invited to Kuala Lumpur to give a final presentation, with the National University of Singapore taking the championship crown.

And this year, CIMB is taking the competition further.

The winning team will win the ultimate prize of **USD10,000 in cash!**

OPERATIONS ORDER

The CIMB ASEAN Youth Stock Challenge 2012 is a trading competition where participants compete in a stock trading challenge at https:// youthstockchallenge.itradecimb.com for the following activities:

1. Buying and Selling of stocks available on the four major stock exchanges in the region (Singapore Exchange, Bursa Malaysia, Stock Exchange of Thailand, Indonesia Stock Exchange).
2. Monitoring your status of orders – matched, unmatched, cancelled, pending, expired, revised, rejected.
3. Only the team leader has the rights to execute the trades on behalf of the team. The remaining members will be granted view-only access rights.

Teams will have to apply their knowledge in interpreting and analyzing information from the stock market and work together to trade securities with a virtual startup capital of USD80,000.

The Stock Challenge shall be for the period commencing from the start of the trading hours on the 17th September 2012 and ending with the end of trading hours on 5th October 2012. This three (3) weeks trading period will test participants' knowledge and skills in strategic planning among the team. They will have to make decisions on what shares to buy and sell, thus encouraging the application of knowledge from the real market information. CIMB's research materials will also be made available to all participants online.

The champion of each country will proceed to the final round on Saturday, 10th November 2012. The finalist teams will present their trading strategies which they have applied throughout competition period to a distinguished panel of judges.

WHAT IS NET REALISED PERCENTAGE?

Net Realised Percentage refers to the total profit percentage made by the team from the stock transactions. Any stocks that are not realised at the end of the trading period will be automatically liquidated.

Example: Team starts up with a total virtual capital of USD80,000 and ends the competition with USD200,000. The Net Realised Percentage is calculated to be 150% [(200,000 – 80,000)/80,000]
